### **Activity 1 - Walkthrough: Creating a Journal Entry Online**

#### **Scenario**

In this scenario, you are the **GL Processor**. In this topic, you will create, maintain, and edit a journal entry for General Ledger in SMART. In this scenario, funding on some of the positions in your agency was incorrectly split between account strings for the most recent payroll period. Enter an online journal to correct the distributions.

#### Menu Path

General Ledger → Journals → Create/Update Journal Entries

#### **UPK Procedure**

Creating and Editing a Journal Entry Online

#### Job Aid

Not Applicable

#### Instructions

Follow along with your instructor as he/she demonstrates how to create a journal online. Perform each step along with the instructor using the values assigned to your training number. For fields in the Required Data table that require a "user specific field," be sure to use ONLY the user number that your instructor has assigned to you. If you need assistance as you complete this exercise ask the instructor for guidance.

| Required Data           |                                     |
|-------------------------|-------------------------------------|
| Field                   | Value                               |

### **Activity 2 - Exercise: Creating a Journal Entry Online**

#### Scenario

As the **GL Processor**, you will create, maintain, and edit a journal entry for General Ledger in SMART. In this scenario, funding on some of the positions in your agency was incorrectly split between account strings for the most recent payroll period. Enter an online journal to correct the distributions.

#### Menu Path

General Ledger → Journals → Journal Entry → Create/Update Journal Entries

#### **UPK Procedure**

Creating a Journal Entry Online

#### Job Aid

Not Applicable

#### Instructions

Use the appropriate steps from the previous Instructor led walkthrough(s) to complete the exercise scenario in SMART. For fields in the Required Data table that require a "user specific field," be sure to use ONLY the user number that your instructor has assigned to you. If you need assistance as you complete this exercise, refer to the UPK. If there is not a UPK, then refer to the Instructor for guidance.

| Field                                          | Value                               |
|------------------------------------------------|-------------------------------------|
| Create/Update Journal Entries: Add a New Value |                                     |
| Business Unit                                  | 17300                               |
| Journal ID                                     | NEXT (Should default to this)       |
| Journal Date                                   | Should default to current date      |
| Create/Update Journal Entries: Header Tab      |                                     |

## Activity 3 - Demonstration: Completing a Journal Marked Incomplete

#### Scenario

In this scenario, you are the **GL Processor**. Due to a shortage of time, you were unable to complete all the journal entries you made the previous day. Therefore, you marked the journal incomplete. The next day, you must pull up the incomplete journal and complete it. You will watch the instructor navigate to an incomplete journal in SMART, change the amount, then mark the journal complete.

#### Menu Path

General Ledger → Journals → Journal Entry → Create/Update Journal Entries

#### **UPK Procedure**

Not Applicable

#### Job Aid

Not Applicable

#### Instructions

Watch your instructor as he/she demonstrates how to pull up an incomplete journal and mark it complete. Do NOT perform this exercise along with your instructor.

| Instructor2 | Journal ID | 000000477 |
| Instructor3 | Journal ID | 000000478 |

Statewide Management, Accounting and Reporting Tool

### **Activity 4 - Exercise: Control Totals**

#### **Scenario**

In this scenario, we will use the **Totals page** to enforce a greater degree of control over the journal entry process. As we enter the journal lines, the system displays a running total of the actual debits, credits, units, and lines, as well as the net difference between the amounts entered and the control totals. When you edit the journal and the control totals do not equal the actual totals, the system flags the journal as having errors, and you need to correct the errors before you can post. You will create a journal online and use the **Totals page** to specify debit and credit amounts, unit value of statistical entries, and the number of lines.

#### Menu Path

General Ledger → Journals → Journal Entry → Create/Update Journal Entries

#### **UPK Procedure**

**Control Totals** 

#### Job Aid

Not Applicable

#### Instructions

Use the appropriate steps from the previous Instructor led walkthrough(s) to complete the exercise scenario in SMART. For fields in the Required Data table that require a "user specific field," be sure to use ONLY the user number that your instructor has assigned to you. If you need assistance as you complete this exercise, refer to the UPK. If there is not a UPK, then refer to the Instructor for guidance.

## Activity 5 - Demonstration: Copying a Journal Entry (Using the Journal Entry page)

#### Scenario

In this scenario, you are the **GL Processor**. You have just received notice that you entered the wrong number in amount field in one of your journal entries. The easiest way to adjust your journal is to copy an existing journal and adjust the amount by entering the difference. In this demonstration, you will observe as your instructor copies a Journal Entry in SMART by using Process drop-down menu.

#### Menu Path

General Ledger → Journals → Journal Entry → Create/Update Journal Entries

#### **UPK Procedure**

Not Applicable

#### Job Aid

Not Applicable

#### Instructions

Watch your instructor as he/she demonstrates copying a journal entry using the journal entry page. Do NOT perform this exercise along with your instructor.

## Activity 6 - Walkthrough: Copying a Journal Entry (Using the Copy Journal page)

#### Scenario

In this scenario, you are the **GL Processor**. You have just received notice that you have transferred money to the wrong Account. The easiest way to adjust your journal is to copy an existing journal and adjust the Account field. In this demonstration, you will observe as your instructor copies a Journal Entry in SMART by using the Copy Journal page.

#### Menu Path

General Ledger → Journals → Journal Entry → Copy Journals

#### **UPK Procedure**

Not Applicable

#### Job Aid

Not Applicable

#### Instructions

Follow along with your instructor as he/she demonstrates how to copy a journal entry using the Copy Journal page in SMART. Perform each step along with the instructor using the values assigned to your training number. For fields in the Required Data table that require a "user specific field," be sure to use ONLY the user number that your instructor has assigned to you. If you need assistance as you complete this exercise ask the instructor for guidance.

| Value                                  |  |  |

Statewide Management, Accounting and Reporting Tool

### **Activity 7 - Exercise: Uploading a Spreadsheet Journal**

#### Scenario

In this scenario, you are the **GL Processor.** After reviewing your monthly expenses, you realize that several transactions were charged to the wrong account string. You need to enter a journal to correct the errors. Use the Spreadsheet Journal Template to quickly upload the journal lines for this correction. After the journal is uploaded, you will view the journal.

#### Menu Path

General Ledger → Journals →Import Journals →Spreadsheet Journals

#### **UPK Procedure**

Uploading a Spreadsheet Journal

#### Job Aid

Not Applicable

#### Instructions

Use the appropriate steps from the previous Instructor led walkthrough(s) to complete the exercise scenario in SMART. For fields in the Required Data table that require a "user specific field," be sure to use ONLY the user number that your instructor has assigned to you. If you need assistance as you complete this exercise, refer to the UPK. If there is not a UPK, then refer to the Instructor for guidance.

### **Activity 8 - Walkthrough: Editing a Journal Online (Non-Batch)**

#### Scenario

In this scenario, you are the **GL Processor**. You have just entered a journal and saved when you realize that the long description is incorrect. In this walkthrough, you will update a Journal Entry in SMART by changing the description on the designated journal.

#### Menu Path

General Ledger → Journals → Journal Entry → Create/Update Journal Entries

#### **UPK Procedure**

Not Applicable

#### Job Aid

Not Applicable

#### Instructions

Follow along with your instructor as he/she demonstrates how to edit a journal entry in SMART. Perform each step along with the instructor using the values assigned to your training number. For fields in the Required Data table that require a "user specific field," be sure to use ONLY the user number that your instructor has assigned to you. If you need assistance as you complete this exercise ask the instructor for guidance.

Statewide Management, Accounting and Reporting Tool

### **Activity 9 - Exercise: Editing a Journal Online (Non-Batch)**

#### **Scenario**

In this scenario, you are the **GL Processor**, who accidentally entered the wrong amount for the journal. Since the journal is comprised of less than two hundred lines, you can use the online journal Lines page process drop-down list to process the journal. In this scenario, you will update a Journal Entry in SMART by changing the credit and debit amounts on the designated journal.

#### Menu Path

General Ledger → Journals → Journal Entry → Create/Update Journal Entries

#### **UPK Procedure**

Not Applicable

#### Job Aid

Not Applicable

#### Instructions

Use the appropriate steps from the previous Instructor led walkthrough(s) to complete the exercise scenario in SMART. For fields in the Required Data table that require a "user specific field," be sure to use ONLY the user number that your instructor has assigned to you. If you need assistance as you complete this exercise, refer to the UPK. If there is not a UPK, then refer to the Instructor for guidance.

## Activity 10 - Demonstration: Editing a Journal Online (Batch Process)

#### Scenario

In this scenario, you need to edit a journal before submitting it into workflow. Since the journal is comprised of over two hundred lines, you can use the batch edit process to edit journal lines. You will learn to edit a journal using the batch process.

#### Menu Path

General Ledger → Journals → Process Journals → Edit Journals

#### **UPK Procedure**

Creating and Editing Journals Online

#### Job Aid

Not Applicable

#### Instructions

Watch your instructor as he/she demonstrates editing a journal online. Do NOT perform this exercise along with your instructor.

### **Activity 11 - Demonstration: Viewing Journal Errors**

#### Scenario

When you run the journal edit process, journal information is checked and errors are found. A summary of these errors in the journal is then available for viewing. In this scenario, you will view these journal entry errors and the nature of those errors on the Journal Header and Journal Lines pages. You find that there are incorrect ChartfField values on your journals.

#### Menu Path

General Ledger → Journals → Journal Entry → Create/Update Journal Entries

#### **UPK Procedure**

### **Activity 12 - Exercise: Viewing and Correcting Journal Errors**

#### **Scenario**

In this scenario, you find that there are missing ChartfField values on your journals. However, before you post these journals, you must check for errors and correct them. Since your journal is under 200 lines, you will not use the batch process to edit and correct this journal. You will manually edit this journal online.

#### Menu Path

General Ledger → Journals → Journal Entry → Create/Update Journal Entries

#### **UPK Procedure**

Not Applicable

#### Job Aid

Not Applicable

#### Instructions

Use the appropriate steps from the previous Instructor led walkthrough(s) to complete the exercise scenario in SMART. For fields in the Required Data table that require a "user specific field," be sure to use ONLY the user number that your instructor has assigned to you. If you need assistance as you complete this exercise, refer to the UPK. If there is not a UPK, then refer to the Instructor for guidance.

### Activity 13 - Walkthrough: Performing a Ledger Inquiry

#### **Scenario**

You can search for a specific ledger or groups of ledgers based on the specified criteria, regardless of status of the journal. In this scenario, your boss has requested that you perform a ledger inquiry because an incorrect ChartField combo has been identified. In this scenario, you are going to use the Ledger Inquiry page to view detail and summary ledger information.

#### Menu Path

General Ledger → General Ledger Center → Inquiry → Ledgers → Ledger

#### **UPK Procedure**

Not Applicable

#### Job Aid

Not Applicable

#### Instructions

Follow along with your instructor as he/she demonstrates how to create a journal online. Perform each step along with the instructor using the values assigned to your training number. For fields in the Required Data table that require a "user specific field," be sure to use ONLY the user number that your instructor has assigned to you. If you need assistance as you complete this exercise ask the instructor for guidance.

Statewide Management, Accounting and Reporting Tool

### Activity 14 - Walkthrough: Performing a Journal Inquiry

#### Scenario

You can search for a specific journal or groups of journals based on the specified criteria, regardless of status of the journal. In this scenario, your boss has requested that you perform a journal inquiry on all journals with a status of "V" for valid for reporting purposes. You are going to use the Journal Inquiry page to review summary and detail journal information of the journals that your boss requested you to find.

#### Menu Path

General Ledger → General Ledger Center → Inquiry → Journals → Journals

#### **UPK Procedure**

Not Applicable

#### Job Aid

Not Applicable

#### Instructions

Follow along with your instructor as he/she demonstrates how to perform a journal inquiry in SMART. Perform each step along with the instructor using the values assigned to your training number. For fields in the Required Data table that require a "user specific field," be sure to use ONLY the user number that your instructor has assigned to you. If you need assistance as you complete this exercise ask the instructor for guidance.

### **Activity 15 - Exercise: Performing a Journal Inquiry**

#### Scenario

In this scenario, your boss has requested that you perform a journal inquiry on all online journal entries with errors. You need to find the errored journals so that they can be corrected. To complete this task, you are going to use the Journal Inquiry page to review summary and detail journal information of the journals that your boss requested you to find. You will click the **Journal ID** link to review the journal header and line detail information. Pay special attention to the Journal Status, Budget Status, and Balanced fields.

#### Menu Path

General Ledger → General Ledger Center → Inquiry → Journals → Journals

#### Instructions

Use the appropriate steps from the previous Instructor led walkthrough(s) to complete the exercise scenario in SMART. For fields in the Required Data table that require a "user specific field," be sure to use ONLY the user number that your instructor has assigned to you. If you need assistance as you complete this exercise, refer to the UPK. If there is not a UPK, then refer to the Instructor for guidance.
